Progress Report/Committee Activities:

A conference call with the committee membership was held in April to review the draft letter to FDA. Group consensus was that the committee needed direction and participation from FDA in order to proceed effectively. Kevin Smith from FDA was contacted and as a result Alan Tart was assigned to assist us in our work. Background documents are still being pulled together (finalized FAQ from the 2005 TCS survey, etc) with follow up conference call scheduled for early August.
